Engineering Week

SWE will be joining other Engineering clubs in UCR and the Bourns College of Engineering to celebrate the nationwide Engineering week (Feb. 19th – Feb. 22nd). In this week many engineering clubs including SWE will be tabling at the bell tower to raise awareness and engage the UCR campus in the field of engineering. We encourage all engineers to be part of E-Week and show the Engineering pride.

SWEethearts Auction!

Streamers, the colors red and pink, and star balloons turned one of our conference rooms into an area ready for a valentine themed event. The day after Valentine's Day, SWE UCR invited all to attend and participate in the Annual SWE Valentine Auction in order to raise money for our chapter.

Twenty volunteers from other organizations and engineering backgrounds were auctioned off for a fun night of activities, dinner and a movie. The night started with a quick round of speed dating. Volunteers and buyers got a chance to talk with one another before placing their bids. By mingling beforehand, people were more open to bidding on someone who they would enjoy being around for a night. During the event, gifts, such as homemade cupcakes and candy, were given away as raffle prizes.

Once all the volunteers were paired off with their bidders, the newly formed couples began the activities. The first activity involved a balloon relay race. Couples had to guess a song by having one partner hum it and then rush to pop a balloon at the next station. Afterwards, the event ended with a delicious Chinese dinner while watching "50 First Dates." Everyone that attended had a wonderful time playing games, dancing to music and winning prizes.
