Ice Cream Social

Written by Leila Suasnabar

On October 1st, we had our very first general meeting of the school year. The turn-out was tremendous with some returning students as well as new incoming freshmen who came to check out the future events and learn more about what SWE is.

We started off with an introduction of all the SWE officers, then continued to ice breakers for everyone to get comfortable with each other. It turned out to be a great way to start the meeting because it helped create a more friendly environment.

Everyone was eager for the ice cream. The line quickly grew but we managed to accommodate everyone. Soon, we announced an ice cream eating contest and everyone was excited about it. At the end of the meeting, we had our raffle in which the prize was a big teddy bear wearing a SWE shirt. Nevertheless to say, everyone wanted to be the winner and take home the prize.

This Ice Cream Social was a total success and we hope that everyone is now eager to be part of the next SWE meeting.

Mentorship Program

Written by Yvette Hernandez

The Nuts-and-Bolts Mentorship program sets out to connect members to Mentors in order to build a sense of community, provide essential resources, and foster potential. Nuts (mentees) are paired up with Bolts (mentors) based on similar majors and interests. Through this program, Mentors will help Mentees adjust to college life and can help with homework. Not only do Mentees learn from an experienced Mentor, but they can also become study buddies with their respective mentors. This mentorship program is a great way to network, expand your resume and most of all, have fun!

If you would like to find out more, come to our next general meeting 10/15/13 or [check out this google document to sign up!](#)

Challengers in the Ice Cream Eating Contest at the First General Meeting

Woman of the Week

Meet Elinor Otto, a 93-year-old woman hard at work. Elinor has been working on airplanes since 1942 and is one of the original “Rosie the Riveter” girls. Elinor is an inspiration to all us SWE girls and boys. To read more about Elinor, [check out this article on NBCNews.com.](#)
